

## **State Funding Provided For Perchlorate Treatment in the Rialto Area**

- **State Water Resources Control Board's Cleanup and Abatement Account** **\$3,000,000**
  - The Regional Board requested this money on November 1, 2002
  - The SWRCB approved the request on November 25, 2002
  - The money was disbursed to Fontana Water Company, West Valley Water District, and the Cities of Colton and Rialto in 2003/2004
  - Each of the four water purveyors received \$750,000
  
- **Propositions 13 and 50** **\$3,094,005**
  - This money was disbursed by the SWRCB to the West Valley Water District, and the Cities of Colton and Rialto
  - Fontana Water Company did not receive any of these funds because the funds were available only to municipal water agencies, and Fontana Water Company is a private water company
  - Proposition 13 funds (\$69,965) were approved in Dec. 2002 and Proposition 50 funds (\$3,024,040) were approved in 2003
  - Of the total allocations the City of Rialto received \$1,061,693; West Valley Water District, \$1,048,473 and the City of Colton, \$983,839
  
- **Regional Board liability assessment contributions** **\$135,000**
  - This money was disbursed equally to the four water purveyors in 2003

In addition, the Regional Board requested an additional \$2,000,000 from the State Water Resources Control Board's Cleanup and Abatement Account in 2003, but sufficient money has not been available to honor that request. That request

is still pending. Also in 2003, \$4,000,000 for wellhead treatment was provided to the four water purveyors (\$1 million each) by Goodrich, as a condition of a settlement agreement between the Regional Board and Goodrich.
